

ICBM Meeting via Skype

7:00pm September 7. 2011

1 Attendance

- Alex Nilson
- Brett Hitchcock
- Chaylo Laurino
- Scott Beddall

2 Github Account

- Decided to get a basic account: 5 collaborators, 10 repos, \$12 per month.
- One collaborator for each team member, one for advisor and client.
- Github doesn't claim IP rights on things their servers.
- Held off on buying the account; waiting to talk to client.

3 Schedules

- Everyone e-mailed their schedule to Scott
- Scott is the team leader and contact with the client; he'll be coordinating with the client and advisor

4 Team Name

- Idaho Cost Management
- We couldn't come up with anything clever, but we might change it in the future

5 Questions for Client

- What platform will we be working on?
 - Client mentioned Windows Server 2003 in presentation, but we want to confirm.
- Will we need to provide our own work environment?
- Will we be using IIS? ASP?
- Can we use software other than .NET to interface with database?
- What kind of database?
- Will we have a budget?
- Scott will correspond with client

6 Etc.

- Alex will be secretary for the group.
- Means he's responsible for typing up and maintaining minutes for the meetings.
