

ICBM Meeting with client via phone conference

2:30pm October 25, 2011

1 Attendance

- Scott Beddall
- Brett Hitchcock
- Chaylo Laurino
- Alex Nilson
- Marj
- Don

2 Difference between manager and admin

- Admins can make changes to the database
- Managers manage their group of employees
- Managers can add work efforts and PCA codes
- Admins can add users

3 Earnings codes

- Earnings codes are part of I-Time but not Mariner
- Consist of a 3 digit code
- A PCA code can have one or more earnings codes
- Current system uses a dedicated PCA for earnings codes

4 Etc.

- We're focusing on the backend functionality; next group can make it look pretty
- We'll have a web meeting with the client Thursday to look at Mariner and figure out what the forms should look like
