ICBM Meeting with ADvisor Greg Donahoe

2:30pm September 20, 2011

1 Attendance

- Alex Nilson
- Brett Hitchcock
- Chaylo Laurino
- Scott Beddall
- Dr. Donahoe

2 Communication with Client

- Scott has tried to contact the client via e-mail and phone; no response from either.
- Dr. Donahoe has received communications from the client.
- Dr. Donahoe will forward our contact info to the client and we'll try again.

3 Webspace

- We still are unable to access our webspace.
- Dr. Donahoe said we should talk to Jay about it. Scott will do so before class today.

4 Summary of Progress

- We have set up a git repository at git hub.
- Everyone on the team is able to push and pull to and from the repository.
- We will make an advisor/client account so they can observe the project as it progresses.

- We have been able to get some of the backend for the project in place: server setups, git repository, and communication between team members.

- We need to talk to the client to iron out details so we can proceed further on the project.
