ICBM Meeting with client via phone conference

2:30pm November 29, 2011

1 Attendance

- Scott Beddall
- Brett Hitchcock
- Chaylo Laurino
- Alex Nilson
- Don Moreaux

2 Status Update

- Working on integration
- We have LDAP working, so there is login functionality
- Active Directory code is commented in next to the LDAP code
    - Not absolutely sure it works since we can't test it
    - Should at least serve as a starting point for the next team
- Updated client on documentation and tutorial work we've done
- We will get the client pictures of the poster and presentation since they are unable to attend
- Outstanding issues with the system, unimplemented features, and known bugs will be documented for the next team
- Client has our contact information should they need to contact us after the semester.
